

Job Description Sample

Farm Supervisor

Reporting to the Farm Manager, the Farm Supervisor supervises the work of specialized workers, farm machinery operators, and harvesting labourers. Expertise in farm management will be essential as you work with bio-security procedures, maintain quality control and production records.

Duties and Responsibilities

- Coordinate, assign and supervise the work of specialized workers, farm machinery operators, and labourers
- Assist in the development and implementation of farm safety and bio-security procedures.
- Ensure compliance with safety and bio-security protocols.
- Maintain quality control and production records.
- Keep accurate work records and logs.
- Perform general farm duties as required.
- Develop work schedules and establish procedures
- May perform general farm duties

Work Environment

- Outside, exposed to weather
- Dangerous chemical substances
- Skin injury
- In an open vehicle or equipment
- Extreme temperatures
- In an enclosed vehicle or equipment
- Standard safety equipment

Qualifications

- Experience using farm machinery for tasks like planting, pruning and spraying.
- Previous experience in agriculture.
